

## Leicester Adult Skills and Learning Service - REMIT

### Get by in Spanish

#### What is the course about?

A short course that should be just enough for you to get a taste of the language and help you to get by should you wish to speak and understand some basic phrases.

#### What will I learn?

The course will begin with the absolute essentials of the language – greetings, simple requests and answers. You will learn how to be friendly, introduce yourself and order food and drink. You will be asked, as well, to identify what *you* want to learn at this simple level, and add this to your goals.

#### Entry Requirements

This course is for total beginners.

#### What will I need to bring with me?

Although the emphasis is on speaking and listening, you will benefit from making notes, so do bring pen and pad.

#### How will I learn?

You will learn through repetition and practice, both with the tutor and the other members of the group, word games and simple role play. You will have the opportunity to record yourself speaking in the language to help both memory and pronunciation.

#### How will my learning be assessed?

You will keep a record of your progress on an Individual Learning Plan, which may include an audio tape demonstrating your achievement.

#### What qualifications will I get?

This is a non-accredited course.

#### Are there any extra costs?

No, although you may want to buy a bi-lingual dictionary.

#### What can I do next?

As well as beginning to communicate in this new language, you may want to continue your study by enrolling upon an Entry Level course.
